JOSE CARLOS MORENO

A first-generation college graduate backed by a strong work ethic, I've succeeded in diverse roles—from Systems Administrator to Information Security Analyst and now Data Analyst at a nationally recognized higher education institution, The University of Texas at Tyler. I understand the importance of being an effective team player, upholding integrity, putting in the work, and taking ownership. I am confident I would be a valuable addition to your team.

EDUCATION

B.S. Data Management / Data Analytics
Western Governors University | Expected 2024

A.A.S. Network Technology
Tyler Junior College | 2020

CERTIFICATIONS

CompTIA A+
CompTIA Network+
CompTIA Security+
CompTIA CySA+
Microsoft Azure Fundamentals
AWS Certified Cloud Practitioner
Cisco CCNA Routing & Switching
CompTIA Project+

PORTFOLIO

A Tale of Tails: Analyzing Twitter Dog Ratings
*Demonstrated the **data wrangling** process on Twitter data, preparing it for analysis.*

Exploring Movie Industry Trends: Unveiling Patterns on the Big Screen
***Modeled** a large movie dataset for ROI, correlations, genre trends, runtime-user rating relationships, and more.*

Engineering Sparkify's Music Data Warehouse
*Designed a PostgreSQL database and engineered the **ETL pipeline** for music streaming data analysis.*

Analyzing A/B Test Results for an E-Commerce Company
*Evaluated **A/B test results** for an e-commerce site to inform decision-making.*

Data Insights at Adventure Works Cycles: A Deep Dive
*Implemented **data analysis** techniques to uncover KPIs within this manufacturer's dataset in a real-word business context.*

EXPERIENCE

THE UNIVERSITY OF TEXAS AT TYLER | TYLER, TX
Data Analyst (08/2023 – Present)

- I took the lead in optimizing our annual IPEDS reports which involve solving complex institutional questions, which means a lot of **data collection** and transformation for in-depth **analysis**. To streamline this process, I wrote **SAS scripts** that fetch the cleaned data and insert it into formatted tables. This **automation** replaced manual data entry within my team and dramatically reduced the time spent from hours to just a few minutes
- **Engineered** the **data collection warehouse**, improving onboarding processes and generated **ad-hoc reports** as needed

UT HEALTH EAST TEXAS | TYLER, TX
Senior IT Data Analyst (01/2023 – Present)

- Innovatively engineered a **Microsoft Power App** to streamline IT inventory **management analytics**.
- **Transformed** over a decade's worth of **Tableau** reports into dynamic **Power BI** reports
- Produced detailed **Crystal Reports** drilling down on EMS financials
- Wrote **Python, PowerShell,** and **BASH** scripts to **automate** configuring ambulance and helicopter software and hardware
- Engineered a customized **ticketing system** using Microsoft Forms, SharePoint, and Power Automate
- Set up **SharePoint** sites for multiple departments, optimizing resource storage

INTEGRIS (CALTECH) | TYLER, TX
Information Security Analyst L2 (03/2022 – 01/2023)

- Managed and secured **Azure Active Directory** architecture for 160+ clients, optimizing data access and security
- Led **Incident Response** engagements, swiftly containing and mitigating security threats while maintaining business continuity
- Analyzed and assessed **zero-day threats**, prioritizing responses based on cost, impact, and severity to safeguard critical assets
- Pioneered and implemented the department's inaugural **training program**, resulting in a notable uptick in documentation knowledge bases by up to 50%
- Collaborated with cross-functional teams, acting as a strategic **security consultant** for multiple high-impact projects
- Successfully mentored junior analysts, nurturing their skills and enhancing team performance

COMPETENCIES

Structured Query Language (SQL)

- Skilled in developing complex queries and extracting, transforming, and loading data
- Intermediate foundation in production databases and highly scalable database methodologies

Statistics

- Familiar with most statistical and machine learning libraries with the ability to perform mathematical analytics
- Intermediate fundamentals developed through WGU

Programming and Scripting

- Effective ability to develop programs for data science
- Organized and efficient programmer in Python, R, and SAS

Visualization Development

- Experienced reports and dashboards developer
- Commonly use Power BI, Tableau, Crystal Reports, SAS, and SQL Server Reporting Services (SSRS)

Domain Knowledge

- Experienced data analyst in various sectors
- Including: Finance and business, Healthcare and Ambulatory, Higher Education Institutions

Cloud Computing and Administration

- Experienced in administering systems in Azure cloud architectures
- Fundamental ability to develop and maintain Amazon Web Services (AWS) cloud networks

CALTECH | TYLER, TX

Information Security Analyst L1 (09/2021 – -3/2022)

- Monitored and deployed changes in **Azure Conditional Access** policies
- Provided secondary support during **Incident Response** engagements
- Developed and maintained **audit remediation** projects improving our clients' security posture

CALTECH | TYLER, TX

Systems Administrator L1 (01/2021 – 09/2022)

- Skillfully **administered** hardware, systems, and network configurations for over 160 financial sector clients.

DATA ANALYTICS

Advanced Excel	Statistical Analysis	Data Cleaning and Preprocessing	Data Visualization
SQL	Programming and Scripting	Machine Learning	Data Mining
Data Storytelling	Big Data Technologies	A/B Testing	Data Security

SOFT SKILLS

Presentation

- Extensive experience speaking publicly with high clarity
- Excellent written and verbal communication skills

Teamwork

- Strong team member who plays to their strengths and motivates others to play to theirs
- Skilled at collaborating with other IT professionals to achieve shared goals, resulting in successful projects

Leadership

- Currently act as the senior team member with proven leadership qualities from serving as a technical consultant and escalation point to others
- Effective at communicating with all stakeholders and building trust through proactive engagement

Work Ethic

- Determined and focused approach to tasks and a commitment to integrity
- Excellent attention to detail to manage effectively
